Shape your ideas into apps that work your way

Base44 lets you build fully-functional apps in minutes with just your words. No coding necessary.

Build me a travel itinerary app for weekend getaways|

Not sure where to start? Try one of these:

Reporting Dashboard
Gaming Platform
Onboarding Portal
Room Visualizer
Networking App

Consider yourself limitless.

If you can describe it, you can build it.

Create at the speed of thought

Tell Base44 your idea, and watch it transform into a working app—complete with all the necessary components, pages, flows and features.

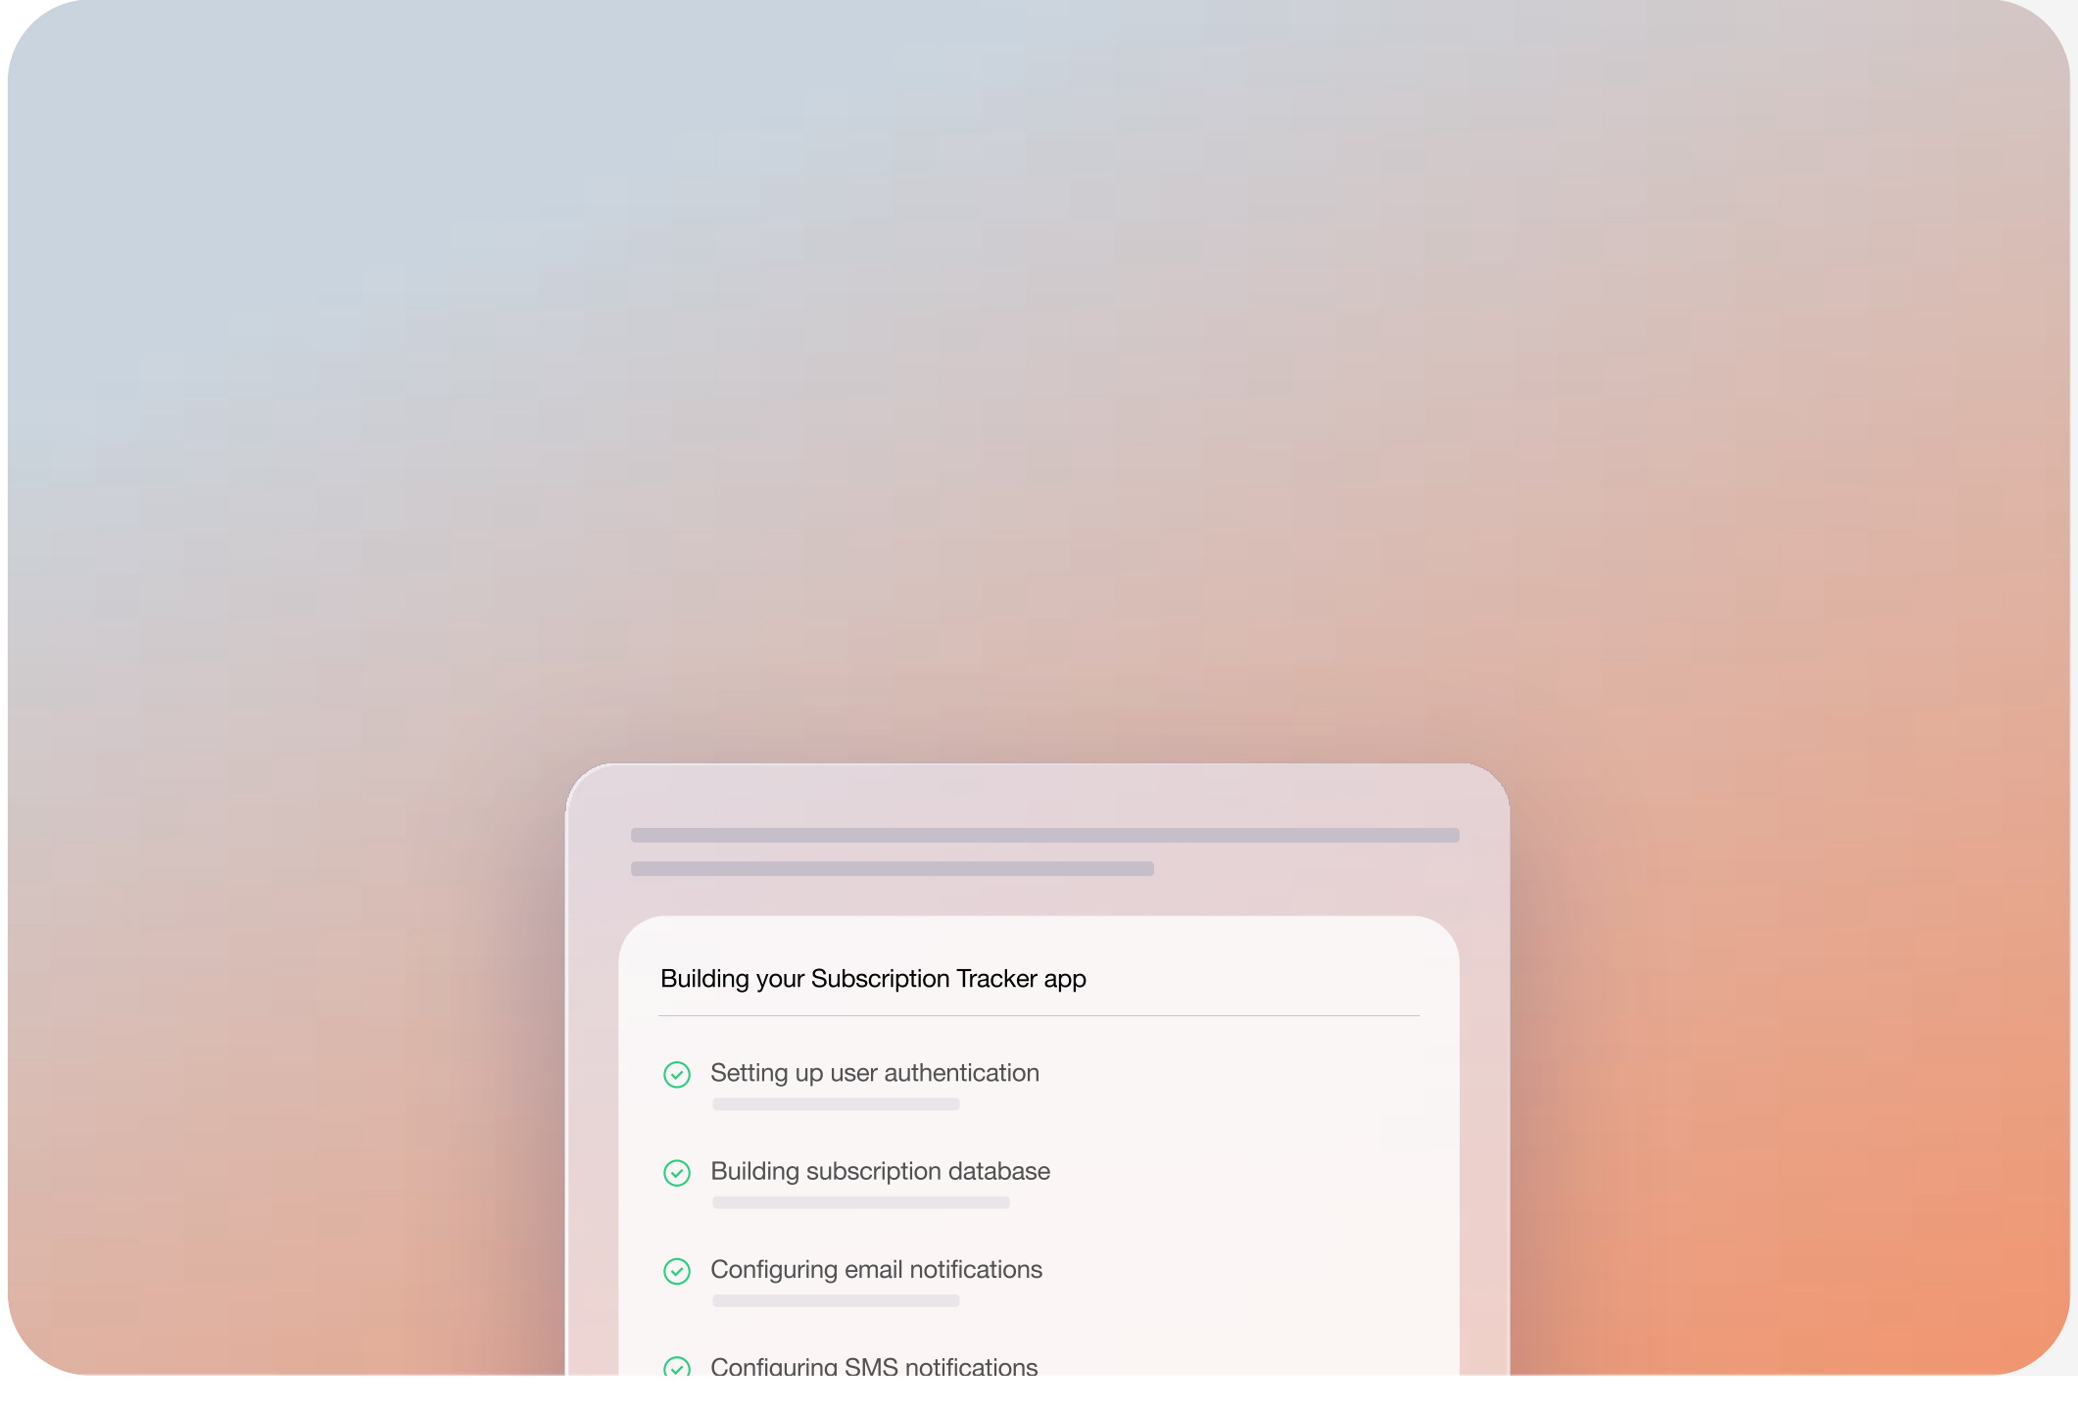
Create an app that helps people keep track of their subscriptions and alerts them to upcoming renewals

The backend's built-in automatically

Everything your idea needs to function, like letting users sign in, saving their data, or creating role-based permissions is taken care of behind the scenes.

Start building



Building your Subscription Tracker app
- Setting up user authentication
- Building subscription database
- Configuring email notifications
- Configuring SMS notifications

Ready to use, instantly.

Our platform comes with built-in hosting, so when your app is ready the only thing left to do is publish, put it to use, and share it with your friends or community.

FAQs

What is Base44? +

Do I need coding experience to use Base44? +

What types of applications can I build with Base44? +

What kind of integrations does Base44 support? +

How are Base44 applications deployed? +

How does the natural language development process work? +

Is my data secure with Base44? +

Do I own the applications I create with Base44? +

Base44

Base44 is the AI-powered platform that lets users build fully functioning apps in minutes. Using nothing but natural language, Base44 enables anyone to turn their words into personal productivity apps, back-office tools, customer portals, or complete enterprise products that are ready to use, no integrations required.
